Senior Information Developer | Technical Writer

CAREER SUMMARY

Seasoned Senior Information Developer and Technical Documentation Specialist with nearly 2 decades of career delivering high-impact technical content across telecommunications, networking, enterprise software, and R&D-driven technology environments. Proven expertise in leading end-to-end documentation strategy for complex products, transforming intricate technical concepts into clear, user-centric content that enhances product adoption, operational efficiency, and customer experience. Excel at collaborating with engineering, product management, QA, and global cross-functional teams to integrate documentation into Agile product lifecycles and align deliverables with evolving business and industry standards.

KEY SKILLS

- Experience in authoring User guides, Installation guides, Troubleshooting guides, Administration guides, Security guides, Release notes, and API documentation.
- Proficiency in Oxygen XML Authoring, Adobe FrameMaker, Markdown, Git, Gerrit, and publishing tools.
- Experience with cross-site collaboration for content development, ensuring accuracy and alignment with industry standards.
- Ability to streamline documentation processes, improving efficiency and content quality.
- Mentoring junior writers and leading end-to-end documentation lifecycle.
- Managing documentation deliverables in fast-paced, deadline-driven environments.
- Experience with Agile documentation workflows and structured authoring.
- Driving documentation strategy and best practices.

CAREER ACCOMPLISHMENTS

- Headed end-to-end documentation delivery across telecommunications and network product releases, elevating content usability, accuracy, and customer experience.
- Optimized documentation workflows and reusable content frameworks, cutting documentation turnaround time and improving publishing efficiency across projects.
- Partnered with Engineering, Product, QA, and Support teams to strengthen documentation quality, driving improvement in content consistency and minimizing support escalations.
- Facilitated documentation transformation initiatives including docs-as-code adoption, and WebHelp validation, boosting documentation accessibility, productivity, and quality assurance.

AWARDS & ACCOLADES

- Recipient of Nokia Appreciate Excellence Award and Nokia Praise Excellence Award for outstanding performance, project contributions, and peer recognition.
- Recognized with Special Recognition Award, Valuable Team Player Award, Team Award, and Cookies Award for exceptional contributions, collaboration, and project success.

PROFESSIONAL EXPERIENCE

Lumine Software Solutions (Motive) India Pvt. Ltd., Bengaluru **Jul 2024 - Feb 2025**
Senior Information Developer

Led end-to-end technical documentation initiatives for telecommunications and network products following the Nokia-to-Lumine transition, ensuring continuity, consistency, and alignment with evolving organizational standards.

- Ensured seamless continuation of documentation quality, processes, and knowledge transfer during the Nokia-to-Lumine transition.
- Collaborated with development, engineering, and support teams to identify, revise, and consolidate documentation repositories into centralized storage systems.
- Built cross-functional partnerships to gather requirements, understand customer needs, and deliver user-centric technical content.
- Developed strong domain expertise across products, technologies, and customer use cases to create impactful technical content.

Nokia Solutions and Networks Pvt. Ltd., Bengaluru **Mar 2014 - Jun 2024**

Senior Information Developer

Owned end-to-end documentation strategy and delivery across multiple product and R&D initiatives, driving high-quality, user-centric technical content aligned with product development and customer experience goals.

- Authored and maintained comprehensive technical content including user guides, API documentation, troubleshooting guides, and release notes.
- Partnered closely with engineering, product, design, and QA teams to embed documentation into the product development lifecycle and influence product clarity from early design stages.
- Championed docs-as-code practices and contributed to improving documentation build, review, publishing, and delivery pipelines.
- Evaluated and enhanced existing documentation through continuous improvement initiatives, user-focused content strategies, and innovative delivery approaches.
- Tested and validated WebHelp platform functionalities to improve enterprise documentation accessibility and user experience.
- Established and maintained documentation standards, style guides, and templates to ensure consistency, scalability, and quality across content assets.
- Tracked documentation health metrics including content coverage and customer feedback, proactively identifying and closing documentation gaps.
- Mentored and onboarded technical writers and information developers through structured feedback, quality reviews, and capability-building initiatives.
- Represented the documentation function in sprint planning, design reviews, and specification discussions to ensure user clarity remained a core product priority.

Oracle India Pvt. Ltd., Bengaluru **Feb 2013 - Sep 2013**

Senior Information Developer

Delivered user-centric technical documentation and led cross-functional content initiatives by translating complex technical concepts into clear, accurate, and accessible documentation aligned with product and customer requirements.

- Developed user-focused documentation, translating complex technical concepts into clear, structured content.
- Collaborated with engineers, product managers, SMEs, and support teams to define technical requirements and enhance documentation quality.

Tech Mahindra (R&D) Services Ltd. **Jun 2005 - Jan 2013**

(Client: Alcatel-Lucent / Nokia Solutions and Networks), Bengaluru

Senior Information Developer - Technical Writer

Directed end-to-end technical documentation initiatives across multiple projects, delivering user-centric content while optimizing documentation workflows and ensuring timely execution.

- Managed end-to-end documentation for multiple projects, ensuring clarity and usability.
- Developed technical content, including user guides, troubleshooting documentation, and release notes.
- Improved documentation efficiency through streamlined processes and content reuse.
- Demonstrated adeptness in managing time-sensitive tasks, ensured the timely achievement of project deliverables, contributed to overall project success, and customer satisfaction.

EDUCATION

Bachelor of Engineering (Chemical) | M.S. Ramaiah Institute of Technology (MSRIT), Bangalore | 2000
